DEPARTMENT OF CONSUMER AFFAIRS STATE BOARD OF PHARMACY

DISCIPLINARY GUIDELINES (Rev. Proposed 1/2001)

INTRODUCTION

The Board of Pharmacy is responsible for the enforcement of statutes and regulations related to the practice of pharmacy. The board serves the public by:

- ❑ protecting the health, safety, and welfare of the people of California with integrity and honesty;
- ❑ advocating the highest quality of affordable pharmaceutical care;
- ❑ providing the best available information on pharmaceutical care; and
- ❑ promoting education, wellness and quality of life.

Pharmacists are patient advocates who provide pharmaceutical care for the citizens of California enlightening them about their drug therapy through effective communicating and listening, assessing, collaborating, understanding and intervening. In addition, enforcement officials are provided the resources to act quickly, consistently and efficiently in the public's interest.

The board recognizes the importance of ensuring the delivery of dangerous drugs and controlled substances for therapeutic purposes. At the same time, and given the historical and current abuse and diversion of drugs, particularly controlled substances, the board believes there should be no tolerance for licensees who traffic in drugs or who, in the absence of appropriate evidence of rehabilitation, personally abuse drugs.

In accordance with section 1760 of the California Code of Regulations, the board has produced this booklet for those involved in and affected by the disciplinary process: the general public, attorneys from the Office of the Attorney General, administrative law judges from the Office of Administrative Hearings, defense attorneys, board licensees, the courts, board staff and board members who review and vote on proposed decisions and stipulations.

These guidelines are to be followed in Board of Pharmacy disciplinary actions. The board has the final authority over the disposition of its cases, and, to complete its work, it uses the services of the Office of the Attorney General and the Office of Administrative Hearings. The board recognizes that individual cases may necessitate a departure from these guidelines. In such cases, the mitigating circumstances shall be detailed in any proposed decision or any transmittal memorandum accompanying a proposed stipulation, especially where Category III violations are involved.

The board has found that accusations are rarely filed except in serious cases. In general, the position of the board is that revocation should always be an option whenever grounds for discipline are found to exist. Board policy is that revocation is generally an appropriate order

where a respondent is in default, such as when he or she fails to file a notice of defense or fails to appear at a disciplinary hearing.

Board policy is that a suspension, where imposed, should be at least 30 days for an individual and at least 14 days for a licensed premises.

The board seeks recovery of all investigative and prosecution costs up to the hearing in all disciplinary cases. This includes all charges of the Office of the Attorney General, including, but not limited to, those for legal services, and includes charges by expert consultants. The board believes that the burden of paying for disciplinary cases should fall on those whose conduct requires investigation and prosecution, not upon the profession as a whole.

The board recognizes there may be situations where an individual licensee deserves a stronger penalty than the pharmacy for which he or she works, but the board also believes in holding a pharmacy owner responsible for the acts of their employees who operate the pharmacy. Similarly, the board recognizes that in some cases a licensed premises may well be more culpable than any individual licensed by or registered with the board.

For purposes of these guidelines “board” includes the board and or its designees.

FACTORS TO BE CONSIDERED IN DETERMINING PENALTIES

Section 4300 of the Business and Professions Code provides that the board may discipline the holder of, and suspend or revoke, any certificate, license or permit issued by the board.

In determining whether the minimum, maximum, or an intermediate penalty is to be imposed in a given case, factors such as the following should be considered:

1. actual or potential harm to the public
2. actual or potential harm to any consumer
3. prior disciplinary record, including level of compliance with disciplinary order(s)
4. prior warnings of record(s) , including citation(s) and fine(s)
5. number and/or variety of current violations
6. nature and severity of the act(s), offense(s) or crime(s) under consideration
7. mitigating evidence
8. rehabilitation evidence
9. compliance with terms of any criminal sentence
10. overall criminal record
11. if applicable, evidence of proceedings for case being set aside and dismissed pursuant to section 1203.4 of the Penal Code
12. time passed since the act(s) or offense(s)
13. whether the conduct was intentional or negligent, demonstrated incompetence, or, if the respondent is being held to account for conduct committed by another, the respondent had knowledge of or knowingly participated in such conduct
14. financial benefit to the respondent from the misconduct.

No single or combination of the above factors is required to justify the minimum and maximum penalty as opposed to an intermediate one.

MITIGATING EVIDENCE

A respondent is permitted to present mitigating circumstances at a hearing or in the settlement process and has the burden of demonstrating any rehabilitative or corrective measures he or she has taken. The board does not intend, by the following references to written statements, letters, and reports, to waive any evidentiary objections to the form of such evidence. The respondent must produce admissible evidence in the form required by law in the absence of a stipulation by the complainant.

The following are examples of appropriate evidence a respondent may submit to demonstrate his or her rehabilitative efforts and competency:

- a. Recent, dated written statements and/or performance evaluations from persons in positions of authority who have on-the-job knowledge of the respondent's current competence in the practice of pharmacy including the period of time and capacity in which the person worked with the respondent. Such reports must be signed under penalty of perjury and will be subject to verification by board staff.
- b. Recent, dated letters from counselors regarding the respondent's participation in a rehabilitation or recovery program should include at least a description and requirements of the program, a psychologist's diagnosis of the condition and current state of recovery and the psychologist's basis for determining rehabilitation.
- c. Recent, dated letters describing the respondent's participation in support groups, (e.g., Alcoholics Anonymous, Narcotics Anonymous, professional support groups, etc.).
- d. Recent, dated laboratory analyses or drug screen reports, confirming abstinence from drugs and alcohol.
- e. Recent, dated physical examination or assessment report by a licensed physician, confirming the absence of any physical impairment that would prohibit the respondent from practicing safely.

TERMS OF PROBATION – PHARMACIST/INTERN PHARMACIST

A minimum three-year probation period has been established by the board as appropriate in most cases where probation is imposed. A minimum five-year probation period has been established by the board as appropriate where self-administration or diversion of controlled substances is involved. Terms and conditions are imposed to provide consumer protection and to allow the probationer to demonstrate rehabilitation. A suspension period may also be required as part of the probation order. The board prefers that any stayed order be for revocation rather than for some period of suspension.

Probation conditions are divided into two categories: (1) standard conditions that shall appear in **all** probation cases, and (2) optional conditions that depend on the nature and circumstances of a particular case. These conditions may vary depending on the nature of the offense(s).

The board may also impose any other condition appropriate to the case where the condition is not contrary to public policy.

CATEGORIES OF VIOLATIONS AND RECOMMENDED PENALTIES

The California Pharmacy Law specifies the offenses for which the board may take disciplinary action. The following are categories of violations used by the board in determining appropriate disciplinary penalties.

The board also has the authority, pursuant to Business and Professions Code section 4301(n), to impose discipline based on disciplinary action taken by another jurisdiction. The discipline imposed by the board will depend on the discipline imposed by the other jurisdiction, the extent of the respondent's compliance with the terms of that discipline, the nature of the conduct for which the discipline was imposed, and other factors set forth in these guidelines.

CATEGORY I

Minimum: Revocation; Revocation stayed; one year probation. All standard terms and conditions shall be included and optional terms and conditions as appropriate.

Respondent shall sell or transfer any legal or beneficial interest in any entity licensed by the board within 90 days following the effective date of this decision and shall immediately thereafter provide written proof thereof to the board.

Option: Respondent shall not acquire any new ownership, legal or beneficial interest nor serve as a manager, administrator, member, officer, director, trustee, associate, or partner of any additional business, firm, partnership, or corporation licensed by the board. If respondent currently owns or has any legal or beneficial interest in, or serves as a manager, administrator, member, officer, director, associate, or partner of any business, firm, partnership, or corporation currently or hereinafter licensed by the board, respondent may continue to serve in such capacity or hold that interest, but only to the extent of that position or interest as of the effective of this decision.

Respondent shall maintain a separate file of all records pertaining to the acquisition or disposition of all controlled substances.

18. Report of Controlled Substances

Respondent shall submit quarterly reports to the board the total acquisition and disposition of such controlled substances as the board may direct. Respondent shall specify the manner of disposition (e.g., by prescription, due to burglary, etc.) or acquisition (e.g., from a manufacturer, from another retailer, etc.) of such controlled substances. Respondent shall report on a quarterly basis or as directed by the board. The report shall be delivered or mailed to the board no later than 10 days following the end of the reporting period.

20. Criminal Probation/Parole Reports

Respondent shall provide a copy of the conditions of any criminal probation/parole to the board, in writing, within 10 days of the issuance or modification of those conditions. Respondent shall provide the name of his or her probation/parole officer to the board, in writing, within 10 days after that officer is designated or a replacement for that officer is designated. Respondent shall provide a copy of all criminal probation/parole reports to the board within 10 days after respondent receives a copy of such a report.

21. Consultant for Owner or Pharmacist-in-Charge

(Option #1 for pharmacist owners - primarily intended for appropriate cases where the respondent is the owner and pharmacist of his or her own pharmacy, the standard language should be used in most cases.)

Respondent shall not supervise any intern pharmacist, perform any of the duties of a preceptor or serve as a consultant to any entity licensed by the board. Respondent may be a pharmacist-in-charge. However, respondent shall retain an independent consultant at his or her own expense who shall be responsible for reviewing pharmacy operations on a [monthly/quarterly] basis for compliance by respondent with state and federal laws and regulations governing the practice of pharmacy and for compliance by respondent with the obligations of a pharmacist-in-charge. The consultant shall be a pharmacist licensed by and not on probation with the board and whose name shall be submitted to the board, for its prior approval, within 30 days of the effective date of this decision. Respondent shall not be a pharmacist-in-charge at more than one pharmacy or any pharmacy of which he or she is not the sole owner.

(Option #2 - appropriate for pharmacists who are not pharmacy owners, but who wish, because of their current employment, to remain as the pharmacist-in-charge, and have provided documentation mitigating evidence to warrant this option.)

Respondent shall not supervise any intern pharmacist, perform the duties of a preceptor or serve as a consultant to any entity licensed by the board. In the event that the respondent is currently the pharmacist-in-charge of a pharmacy, the pharmacy shall retain an independent consultant at its own expense who shall be responsible for reviewing pharmacy operations on a [monthly/quarterly] basis for compliance by respondent with state and federal laws and regulations governing the practice of pharmacy and for compliance by respondent with the obligations of a pharmacist-in-charge. The consultant shall be a pharmacist licensed by and not on probation with the board and whose name shall be submitted to the board for its prior approval within 30 days of the effective date of this decision. Respondent shall not be a pharmacist-in-charge at more than one pharmacy or at any pharmacy of which he or she is not the current PIC. The board may, in case of an employment change by respondent or for other reasons as deemed appropriate by the board, preclude the respondent from acting as a pharmacist-in-charge.

22. Tolling of Suspension

If respondent leaves California to reside or practice outside this state, for any period exceeding 10 days (including vacation), respondent must notify the board in writing of the dates of departure and return. Periods of residency or practice outside the state - or any absence exceeding a period of 10 days shall not apply to the reduction of the suspension period.

Respondent shall not practice pharmacy upon returning to this state until notified by the board that the period of suspension has been completed.

PHARMACY TECHNICIAN

The board files cases against pharmacy technicians where the violation(s) involve significant misconduct on the part of the licensee. The board believes that revocation is the appropriate penalty when grounds for discipline are found to exist. Grounds for discipline include, but are not limited to the following violation(s) of law(s) involving:

- Possession of dangerous drugs and/or controlled substances
- Use of dangerous drugs and/or controlled substances
- Possession for sale of dangerous drugs and/or controlled substances
- Personal misuse of drugs or alcohol

If revocation is not imposed, the board recommends a minimum of a Category III level of discipline be imposed on the pharmacy technician. This would include suspension and probation.

In addition, a pharmacy technician would be required to obtain certification from the Pharmacy Technician Certification Board (PTCB) prior to resuming work as a pharmacy technician. The board believes that certification prior to resuming work is always warranted in cases where a pharmacy technician registration is disciplined but not revoked.

Pharmacy technicians are issued a registration, based on minimal education or training requirements. No examination is required for issuance of the registration. Pharmacy technicians are not independent practitioners and must work under the supervision of a pharmacist. To place a pharmacy technician on probation places an additional burden on the pharmacist (who may or may not be on probation) to ensure that the respondent pharmacy technician complies with the terms and conditions of his or her probation.

TERMS OF PROBATION – PHARMACY TECHNICIAN

A minimum three-year probation period has been established by the board as appropriate in most cases where probation is imposed. A minimum five-year probation period has been established by the board as appropriate where self-administration or diversion of controlled substances is involved. Terms and conditions are imposed to provide consumer protection and to allow the probationer to demonstrate rehabilitation. A suspension period may also be required as part of the probation order. The board prefers that any stayed order be for revocation rather than for some period of suspension.

Probation conditions are divided into two categories: (1) standard conditions that shall appear in **all** probation cases, and (2) optional conditions that depend on the nature and circumstances of a particular case. These conditions may vary depending on the nature of the offense(s).

The board may also impose any other condition appropriate to the case where the condition is not contrary to public policy.

7. Reimbursement of Board Costs

Respondent shall pay to the board its costs of investigation and prosecution in the amount of \$_____. Respondent shall make said payments as follows: _____.

~~If respondent fails to pay the costs as specified by the board and on the date(s) determined by the board, the board shall, without affording the respondent notice and the opportunity to be heard, revoke probation and carry out the disciplinary order that was stayed. The filing of bankruptcy by respondent shall not relieve respondent of his or her responsibility to reimburse the board its costs of investigation and prosecution.~~

8. Probation Monitoring Costs

Respondent shall pay the costs associated with probation monitoring as determined by the board each and every year of probation. Such costs shall be payable to the board at the end of each year of probation. Failure to pay such costs shall be considered a violation of probation.

9. Status of License

Respondent shall, at all times while on probation, maintain an active current certification with the board, including any period during which suspension or probation is tolled.

If respondent's certification expires or is cancelled by operation of law or otherwise, upon renewal or reapplication, respondent's license shall be subject to all terms and conditions of this probation not previously satisfied.

10. Notification of Employment/Mailing Address Change

Respondent shall notify the board in writing within 10 days of any change of employment. Said notification shall include the reasons for leaving and/or the address of the new employer, supervisor or owner and work schedule, if known. Respondent shall notify the board in writing within 10 days of a change in name, mailing address or phone number.

11. Tolling of Probation

It is a violation of probation for respondent to work less than _____ hours per month as an exemptee. Should respondent, regardless of residency, for any reason cease practicing as an exemptee in California, respondent must notify the board in writing within 10 days of cessation of practice or the resumption of the practice. Such periods of time shall not apply to the reduction of the probation period. It is a violation of probation for respondent's probation to remain tolled pursuant to the provisions of this condition for a period exceeding three consecutive years.

"Cessation of practice" means any period of time exceeding 30 days in which respondent is not engaged in the practice of a pharmacy technician as defined in section _____ of the Business and Professions Code or as an exemptee as defined in section _____ of the Business and Professions Code.

12. Violation of Probation

If respondent violates probation in any respect, the board, after giving respondent notice and an opportunity to be heard, may revoke probation and carry out the disciplinary order which was stayed. If a petition to revoke probation or an accusation is filed against respondent during probation, the board shall have continuing jurisdiction, and the period of probation shall be extended, until the petition to revoke probation or accusation is heard and decided.

If a respondent has not complied with any term or condition of probation, the board shall have continuing jurisdiction over respondent, and probation shall automatically be extended until all terms and conditions have been satisfied or the board has taken other action as deemed appropriate to treat the failure to comply as a violation of probation, to terminate probation, and to impose the penalty which was stayed.

13. Completion of Probation

Upon successful completion of probation, respondent's certificate will be fully restored.

14. License Surrender while on Probation/Suspension

Following the effective date of this decision, should respondent cease practice due to retirement or health, or be otherwise unable to satisfy the terms and conditions of probation, respondent may tender his or her license to the board for surrender. The board shall have the discretion whether to grant the request for surrender or take any other action it deems appropriate and reasonable. Upon formal acceptance of the surrender of the license, respondent will no longer be subject to the terms and conditions of probation.

Upon acceptance of the surrender, respondent shall relinquish his or her pocket license to the board within 10 days of notification by the board that the surrender is accepted. Respondent may not reapply for any license from the board for three years from the effective date of the surrender. Respondent shall meet all requirements applicable to the license sought as of the date the application for that license is submitted to the board.

Periods of residency or practice outside the state or any absence exceeding a period of 10 days shall not apply to the reduction of the suspension period.

Respondent shall not act as a pharmacy technician upon returning to this state until notified by the board that the period of suspension has been completed.

TERMS OF PROBATION – PREMISES

A minimum three-year probation period has been established by the board as appropriate in most cases where probation is imposed. A minimum five-year probation period has been established by the board as appropriate where self-administration or diversion of controlled substances is involved. Terms and conditions are imposed to provide consumer protection and to allow the probationer to demonstrate rehabilitation. A suspension period may also be required as part of the probation order. The board prefers that any stayed order be for revocation rather than for some period of suspension.

Probation conditions are divided into two categories: (1) standard conditions that shall appear in **all** probation cases, and (2) optional conditions that depend on the nature and circumstances of a particular case. These conditions may vary depending on the nature of the offense(s).

The board may also impose any other condition appropriate to the case where the condition is not contrary to public policy.

CATEGORIES OF VIOLATIONS AND RECOMMENDED PENALTIES

The California Pharmacy Law specifies the offenses for which the board may take disciplinary action. The following are categories of violations used by the board in determining appropriate disciplinary penalties.

The board also has the authority, pursuant to Business and Professions Code section 4301(n), to impose discipline based on disciplinary action taken by another jurisdiction. The discipline imposed by the board will depend on the discipline imposed by the other jurisdiction, the extent of the respondent's compliance with the terms of that discipline, the nature of the conduct for which the discipline was imposed, and other factors set forth in these guidelines.

CATEGORY I

Minimum: Revocation; Revocation stayed; one-year probation. All standard terms and conditions shall be included and optional terms and conditions as appropriate.

Maximum: Revocation
